

COMMERCIAL ROOFING SYSTEMS

Our comprehensive portfolio of commercial roofing solutions to fit your building's needs

EPDM

**PROVIDING DURABILITY
FOR OVER 40 YEARS**

With superior durability, flexibility and UV resistance, RubberGuard™ EPDM is a versatile roofing solution that withstands the test of time.

TPO

**25 YEARS OF PROVEN
PERFORMANCE**

As demand increases for heat-reflective and energy efficient roofing systems, you can rely on UltraPly TPO to continue to provide resistance to ultraviolet, ozone and chemical exposure, with an unchanged formulation for over 25 years.

POLYISO

**ENERGY EFFICIENCY.
POWERFUL PERFORMANCE.**

ISOGARD is a high-performance polyiso that delivers the highest r-value per inch in cold temperatures. Our ISOGARD formulation provides superior thermal performance, up to 40% better than the competition*.

METAL

**DURABILITY AND
ARCHITECTURAL BEAUTY**

Elevate's metal roofing systems offer a range of benefits, including design enhancement, energy efficiency and ease of use. Both reliable and versatile, our long-lasting metal roofing solutions are suited to a variety of applications.

PVC

**FLEXIBILITY AND DURABILITY
TO COVER ANY PROJECT**

Elevate's PVC systems include highly reflective roofing membranes, UV inhibitors, high-performance watertight heat-welded bonds, and exceptional resistance to harsh environments.

ASPHALT

**DECADES OF
PERFORMANCE**

Dealing with a unique design or installation? Elevate APP, SBS and BUR Asphalt Systems give you a single source for quality, dependable asphalt-based roofing solutions.

About Elevate

Grounded by a 40-year legacy of proven experience, your people and your success are at the heart of everything we do. At Elevate, we're committed to helping your business rise above with an expansive, trusted portfolio of commercial roofing solutions that save you time, perform reliably, and protect our communities. And with a relentless commitment to excellence, we're dedicated to making the climb with you, and becoming a part of your legacy for generations to come.

* The thermal performance of ISOGARD polyiso insulation is up to 40% better than major competitors when tested by an independent third party in cold temperature 40°F (4°C) applications according to ASTM C1289 standards.
